## Summary

Passionate and detail-oriented web developer with a strong foundation in front-end technologies and responsive web design. Adept at creating clean, user-friendly websites and continuously seeking to grow in collaborative, real-world environments. Recently trained in both web development and virtual assistance, bringing a unique blend of technical and communication skills to the table.

## Education

Ubunifu College - Certificate in Web Development

November 2024 - April 2025, Nairobi, Kenya

HubSpot Academy - Certificate in Virtual Assistance

December 2024 - January 2025, Online

## Projects

### E-commerce Website

<https://vercel.com/stellas-projects-b9c26e50/jumia>

Developed a responsive e-commerce front-end web application for selling phones. The site includes product listings, a detailed product page, cart functionality, and a clean layout to simulate a real online shopping experience.

### Hello Chef Recipe Website

<https://vercel.com/stellas-projects-b9c26e50/hello-chef-ceyp>

Built a multi-page recipe website where users can browse a collection of meal ideas. The site features recipe cards, cooking instructions, and a responsive layout. Focused on user-friendly

design and clean navigation to enhance the browsing experience.

## **Ubunifu College Project**

<https://vercel.com/stellas-projects-b9c26e50/ubunifu-college>

Created an informational website to showcase Ubunifu College's programs and features. The project highlights structured content layout, semantic HTML, and responsive styling techniques, simulating a modern institutional site.

## **Skills**

- HTML, CSS, JavaScript
- Responsive Web Design
- Front-end Development
- Git & GitHub
- Vercel Deployment
- Virtual Assistance (Email communication, scheduling, research)
